

**MANY CUSTOMERS ALL OVER THE
WORLD HAVE SUCCESSFULLY
EXPERIENCED WITH
DIGITAL LABORATORY
BECAUSE**

SAVES YOUR TIME

Create various colorations with the designer right here and now without going to the lab.

EQUALLY EFFICIENT

Works for flooring, furniture as well as HPL industry.

WORLDWIDE SUCCESS

There are many examples of successful decors all over the world created with digital colormatchings.

WORLDWIDE EXPERIENCE

We are working closely within our internal network and utilize all benefits and experiences from all of our global operators.

CLOSE TO REALITY

Digital laboratory recreates the most realistic conditions for the evaluation of the obtained samples reproduced under standardized light conditions.

FULLFILLS YOUR DREAMS

A customer embodies his color idea of a design, playing with color variations very easily and creates the unique design for the market.

NATURALNESS OF SAMPLES

Resolution and type of ink use the same pigments than in rotogravure.

STATISTICS

On average, impress produces around 7,000 printouts every six months.

DIGITAL LABORATORY – a digital large format printing machine – is a tool for efficient creative common work.

Digital stations are located in our plants and design offices the U.S.A., Colombia, Brazil, Poland, Spain, Germany, Austria, Turkey, China and Russia.
